

## 2023 Fall MOGAM-KASBP Scholarship Winners

The MOGAM-KASBP Scholarship program awards undergraduate and graduate students pursuing science-related disciplines at university or scientific institution outside of Republic of Korea (ROK) thanks to the generous support of Mogam Science Scholarship Foundation. To foster students to advance their studies in KASBP's key areas of interest, the program offers \$5000 to select scholars. Additionally, recipients are invited to attend the 2023 Fall KASBP Symposium, where they will have the opportunity to explore the current trend of pharmaceutical industry and to establish networks with leaders and experts in Korean-American pharmaceutical society.

Having reviewed a highly competitive pool of candidates from all across the United States of America, we proudly congratulate the 2<sup>nd</sup> MOGAM-KASBP Scholars. We thank everyone who took their time to submit scholarship application.

The winners are

- **Saejeong Park**, PhD candidate, Yale University CT
